### **4. Remove spirits, demons, curses**

Getting rid of demons, spirits, curses, essences, body / domestic things all this exists and torments humanity. They cause suffering, emotional, physical, spiritual wisdom and destroy the inner world.

### **5. Cut cords of attachment with someone**

It is clear that attachments can be either 'healthy' or 'unhealthy'. They are usually unanimously classified as healthy or good if they add to our wellbeing, and unhealthy or bad if they detract from our wellbeing. This is why it's important to deal with these negative attachments and associations in any relationship.

When we carry burdens in current relationships or relationships from the past, they cost us. They take from us, rather than give. They take our spirit, our energy, our health and our ability to think clearly or realize what's happening to us. I'm certain this is the root of much stress,

fatigue, and illness, both chronic and acute. What destroys even the most loving relationships, is walking around with lots of wounds and experiencing the pain of unresolved conflict. Everyone deserves a fresh start, and cutting the cords of painful negative attachments is the way to do it successfully. Effectively wiping the slate clean. We all do this at the beginning of any new relationship, don't we? Why not keep the relationship 'healthy', from both sides, by wiping the slate clean from time to time?

### **6. Customize a distance energy healing sessions**

Based on your needs or desires, I'll create a healing session just for you. Tell me your needs or life changes you would like the energy directed to. If for a pet or for another person, tell me their needs/situation, and I'll make sure to create the best session for them.

I will do a customized energy healing session based on your specific needs, combining several healing methods to create the energy needed for your requested topic.

Lately, I've been working with Fibromyalgia, Multiple Sclerosis, severe back and spinal pain, emotional abuse, nightmares, blockages, life and financial stress, pets, migraines, general wellness, relationship issues, family stress, trapped emotions, loss of joy, insomnia, and more. Not sure where to start (overwhelm)? I'd suggest a few Whole Life Sessions, it will let you see the things that need to go in your life, then where to go next.
